WATER HEATER CHANGE-OUT

As representative of my company, I affirm there is no upgrade of the electrical system or service wiring changes required for the new unit(s) being installed. **I also affirm that there is an electrical disconnect within sight of the water heater and the unit is not cord and plug connected, (meeting the requirements of NEC Article 422). Furthermore I am aware an electrical permit shall be required for any additional electrical work.**

Print legibly or type and fill out form completely.
